***Priority***

1. Receipt is acknowledged of papers submitted under 35 U.S.C. 119(a)-(d), which papers have been placed of record in the file.
  
2. **Status:** Please all replies and correspondence should be addressed to examiner's new art unit 2629. Receipt is acknowledged of papers submitted on 12-14-2007 under amendments, which have been placed of record in the file. Claims 1-17, 19-36 and 38-44 are pending in this action. Claims 18 and 37 are cancelled.

***Response to Amendment***

3. The amendments filed 12-14-2007 do not introduce any new matter into the disclosure. The added material which is supported by the original disclosure. Applicant has amended independent Claims 1, 2, 13, 14, 20, 21 and 32 and cancelled claims 18 and 37 to overcome prior art non-final rejection mailed on 08-14-2007.

***Drawings***

4. Figures 5A, 5B, 7, 8 and 13A, 13B should be designated by a legend such as --Prior Art-- because only that which is old is illustrated. See MPEP § 608.02(g). Corrected drawings in compliance with 37 CFR 1.121(d) are required in reply to the Office action to avoid abandonment of the application. The replacement sheet(s) should be labeled "Replacement Sheet" in the page header (as per 37 CFR 1.84(c)) so as not to obstruct any portion of the

drawing figures. If the changes are not accepted by the examiner, the applicant will be notified and informed of any required corrective action in the next Office action. The objection to the drawings will not be held in abeyance.

5. The drawings were received on 09-29-2005. These drawings are accepted by Examiner. However, the Figures 5A, 5B, 7, 8 and 13A, 13B should be designated by a legend such as -- Prior Art-- as they are discussed in the related art as prior art.

### *Specification*

6. Applicant is reminded of the proper language and format for an abstract of the disclosure.

The abstract should be in narrative form and generally limited to a single paragraph on a separate sheet within the range of 50 to 150 words. It is important that the abstract not exceed 150 words in length since the space provided for the abstract on the computer tape used by the printer is limited. The form and legal phraseology often used in patent claims, such as "means" and "said," should be avoided. The abstract should describe the disclosure sufficiently to assist readers in deciding whether there is a need for consulting the full patent text for details.

The language should be clear and concise and should not repeat information given in the title. It should avoid using phrases which can be implied, such as, "The disclosure concerns," "The disclosure defined by this invention," "The disclosure describes," etc.

7. The abstract of the disclosure is objected to because total word count exceeds 150.

Correction is required. See MPEP § 608.01(b).

***Response to Arguments***

8. Applicant's arguments, see remark, filed 12-14-2007, with respect to amended independent Claims 1, 2, 13, 14, 20, 21 and 32 have been fully considered and are persuasive. The amendments do overcome double patenting and non-final prior art rejection of 08-14-2007.

***Conclusion***

9. This application is in condition for allowance except for the following formal matters:

Figures 5A, 5B, 7, 8 and 13A, 13B should be designated by a legend such as --Prior Art-- and abstract needs to be corrected so that total word counts do not exceed 150.

Prosecution on the merits is closed in accordance with the practice under *Ex parte Quayle*, 25 USPQ 74, 453 O.G. 213, (Comm'r Pat. 1935).

A shortened statutory period for reply to this action is set to expire **TWO MONTHS** from the mailing date of this letter.
